Outstanding presenter and discussion facilitator. He effectively leveraged the knowledge and experience of the attendees to make both sessions rich, educational, practical, and immediately actionable.

David engaged his audience and practiced what he was teaching - listen, validate, recognize, and encourage. I appreciate the cadence of content, the pausing, and reflecting on what was said. He remained curious and interested in what we were saying. I will definitely continue my journey with AI and reach out to him. I would take another course offered as the speaker. Well done.

Had an inspiring evening listening to Dr. David Schreiner talk about being a values-driven leader. His book hits the shelves on January 16, but we got an early release copy! If you're looking to improve employee engagement and communication, this book is a must-read for all leaders
